

## The Power, Potential, and Profound Impact it has on Babies through Kindergarten

Dig deeper with Christine to discover the significant impact structured dance activities have on early childhood development.

1. Learn about the profound impact that creative dance has on cognitive, physical, social and emotional development from birth to kindergarten.
2. Deepen your understanding of the neuroscience of the body/mind connection.
3. Experience structured dance activities that get results.

### Early Childhood Educators:

- ♥ Learn about *The Four Legs For Learning™*
- ♥ Discover *The Six Building Blocks for Motor Development™*
- ♥ Get access to a wealth of Creative Play Products™
- ♥ Walk away with lesson plans for infants and preschoolers

### Experience

Christine Roberts is the founder of Nurturing Pathways®, a creative dance program that provides comprehensive development for babies to four years. Her work has been endorsed by Seattle-based pediatrician, Dr. Naomi Katz, biologist and educator, Dr. Carla Hannaford, and Vaughneta J. Barton, Executive Director, Foundation for Early Learning.

Christine's message that 'movement is the gateway for learning because of its positive impact on development and school readiness', reaches over 1,000 people annually. She is a featured speaker with National Association for the Education of Young Children and National Head Start Association as well as other early learning and parent education conferences.
